

If the cat is friendly and happy to be handled by you try fitting them with this paper collar. If they aren't, or they run away then leave them be. If happy to be near you then have the collar and a small piece of tape ready and make sure they are happy to be stroked around the neck area. Avoid ripping the tape near them and just use a small piece of tape so that if trapped they can tear the collar off.

Make sure you print the collars on to normal paper (ie not photographic paper or card) so that if it gets snagged it will tear easily and not trap the cat.

 Pets change lives
We change theirs

Is this your cat? YES I am an owned cat please do not feed me (mark the box)
