Using a chat bot for your 1897 Challenge fundraiser

Using a chat bot is a really easy way to allow your community to find out key bits of information about your fundraiser and the Blue Cross so why not take a little time before your event to add set one up or add charity specific commands to your existing bot?

If you've never used a bot before, here's a great guide from Tiltify on how to get started.

While you can add any command you find useful, we've put together some suggested commands and responses for you on the next page that you can pick and choose from. It's then as simple as copying and pasting them into your chosen bot and letting your community know that they are available to use!

If you don't see the information you'd like, or you need some extra help, then please do reach out to us on Paws2play@bluecross.org.uk or join us on Discord right here.

We really can't thank you enough for your support
!1000dono	£1000 is no small amount to donate or raise. It's lifechanging and can help Blue Cross cover the cost of leasing an animal ambulance for a full month so those who can't get out and about can still get their pets the essential vet care they need
!1243dono	Woof that's a big number! It's also the cost of covering all the care, attention and food that a single dog will need while with Blue Cross. So from the bottom of our hearts, thank you for helping to make it possible for us to give a dog the chance to live a healthy life in a happy home
