

## Money matters

You are working out which pet your family could afford to keep. You work out how much money you have coming in each month and then you take away the cost of running your home, food, travel, clothes and other activities. **You find you have £25 left that you could spend on a pet each month.**

Look at the list of monthly costs and work out which pet you could afford to keep:

Animal	Food cost	Health cost	Other costs	How much of you £25 will you have left?
 <span>Dog</span>	£20	£30	£20	
<span>Cat</span> 	£12	£25	£10	
 <span>Rabbits</span>	£6	£10	£8	
<span>Hamster</span> 	£3	£3	£6	
 <span>Goldfish</span>	£3	£2	£2
